Teen Girl's Rescue Street Shelter

Dear Friends & Partners,

We had a great time with our visitors this month! Megan and Mary Mai came and helped me with so many projects! They also had a great time interacting with the kids and building relationships to point these kids towards Jesus. My cousin Josh is our other visitor who will remain with me until the end of this month. He has been out on the farm almost every day helping to get our farm fence installed! He also has done a great job leading our Bible studies and teaching on Sundays. He keeps the kids engaged and points them straight to Jesus every time. This has been an awesome time and we give God all the glory for what He is doing here at Encouragement. It is not by our own power but only by HIS power! We praise Him! - **Katlyn Pollock, Director of African Ministries**

(New Boys: Emmanuel & John are Twins)
